
Peristaltic Pump Out Equipment

Peristaltic Pump Out Station

Peristaltic Pump Out Cart

Peristaltic Pump Out Systems

Edson's Peristaltic Pump Out Systems are Ideal for Marinas that have to Pump Long Horizontal and Vertical Distances. The simple pump unit sucks waste from 20+ ft down and then discharge it under head condition up to 45 ft.. The Pump Out Station comes complete with the Edson Hose Stand and an attractive Fiberglass Cover. The Pump Out Cart is a self-contained portable collection system. Both come with all the fittings and adapters that make it easy to pump out any boat.
